ALL SIXTEEN ONLINE COURSES ARE LIVE!

Attention All IATSE Local 204 Members

EXCITING TIMES IN THE TRAINING DEPARTMENT

We are formalizing our training program here within Local 204 and at the same time partnering with the IATSE and the Training Trust Fund (TTF) opportunities they provide.

The IATSE/TTF offers many courses of instruction that are tailored to meet the various needs of the IATSE workforce. These courses are offered both individually and via Instructor Led Sessions (ILS)A.

We are in the process of developing Local 204 departmental/specialized training and we will also be utilizing the IATSE ILS curriculum.

We are providing you the direct link below so that you can apply for, access, and begin your own online sessions of either "Safety First" (which includes 16 modules) and/or to set up your subscription to "Lynda.com," which gives you access to thousands of learning paths in audio visual skills, animation, digital illustration, software development, graphic design, IT Security, project coordination, photography, MS office, and much more. (The application will allow you to choose one or both)

All training is FREE and you will receive a "Certificate of Completion," for each course completed. Your certificate will be automatically entered into the IATSE TTF "Tracker." The Instructor Led Sessions (ILS) will also be entered into the "Tracker," which can be accessed at any time by Local 204 to review the training our members have both enrolled in or have already completed.

So, TO GET STARTED >>> please use the https address/link below, then go to "Download Individual Application." Once it is completed, emailed, and received by Melinda Labita, the IATSE Program Implementation Specialist, you will be notified and sent instructions on how to set up your account. If you have any questions concerning "account setup," you may contact Melinda directly at 818-655-0737. You can also contact our Training Committee Chairman, Vice President Red Davidson.

Thank you for your proactive interest in the training program. Once enrolled, please give us feedback on any problem areas you may encounter and on your overall progress!
